Weather all depends on the **WIND** in Wyoming. Temperatures are very much like early summer at the beach. Beautiful afternoons (80-90) with a breeze and **no humidity**, cool mornings and evenings (60's & 70's), rain and lightning storms may occur in the summertime.

Altitude sickness can occur so please drink lots of water and take it easy the first day out on the ranch so your body can adjust. We are pretty high up (7200 ft.) and sometimes it does affect visitors. Town is 12 miles away from the ranch, with a K-Mart at one end and a Super Wal-Mart way out at the other end. In town, we have family stores, restaurants, bars, and many other small town businesses, but **no mall!** Safeway, Albertson's, and Wal-Mart are our grocery stores. Everyone takes credit and debit cards, personal checks, and there are lots of ATM's and banks available, but no east-coast banks chains.
